Gaston County Schools
Career
Academy

It's never too early for students to begin thinking about the future. At the middle school level, the Career Academy makes it possible for students to explore a variety of career fields so they can get an idea of the job opportunities that await once they graduate from high school and college.

At Southwest, students focus on career exploration in the areas of family and human services (foods, health, and public service) and business and information technology. Through the Career Academy, students learn that their future (regardless of which career they select) will be influenced by technology and involve service to others.

This program provides a pathway for students to participate in the Career Academy at Hunter Huss High School.
